

# Caring For Our Community

Sierra Vista Hospital is dedicated to providing personalized, quality patient care with a continued focus on the health and well-being of our community. We strive to be a resource for our patients and their families, operating under our mission of **Making a difference. Changing lives.** We provide a full range of inpatient and outpatient services ranging from early adolescent through senior care at our facility, including:

Acute inpatient care  
Partial hospitalization  
Dual diagnosis  
Chemical dependency  
Intensive outpatient  
Detoxification

## **But we are more than a hospital providing services.**

**We are making a difference and changing lives.** Quality patient care is the cornerstone of our operating philosophy. As the industry leader, our parent company, Psychiatric Solutions, Inc., sets the standard for high quality behavioral patient care. Sierra Vista is a team of more than 200 dedicated healthcare professionals with a singular purpose: to provide the best care and counseling to every patient who comes to our facility for help.

**We are a community resource.** Opening a \$12 million state-of-the-art 48-bed unit will enhance our existing facility. We'll have a total of 120 beds to serve the needs of Northern California. We've also invested more than \$1.5 million since 2005 to upgrade our patient treatment environment and recruit and train the best staff. To achieve our mission, we're continually investing in our facilities and our people.

**We're bringing the best together.** Sierra Vista has partnered with the University of Southern California to ensure our patients are getting the best care, and medical and nursing students are getting the best training. USC Family Practice Residents perform their psychiatric rotations at Sierra Vista under the watchful eye of well-respected professionals in the area of behavioral healthcare. We've also partnered with a number of respected nursing and social work schools to provide students with expert training in a caring and compassionate healthcare setting.

**We're delivering on our promise to care.** Quality healthcare for everyone depends on a community's willingness to help those in need. Sierra Vista is doing its part to help care for those who can't care for themselves. Since 2005, we've invested more than half a million dollars to provide charity and subsidized care and continue to be a resource for our community and the counties we serve.

**We're giving back to our community.** At Sierra Vista, we believe it's important to give back to the communities we call home. Both in volunteer hours and charitable donations, we support a number of local charities that are committed to improving the quality of life in the Sacramento area, including: Sacramento Children's Home, The Charlie Brown Blanket Drive, Toys for Tots and The Jason Foundation.

This is both a challenging and an exciting time for Sierra Vista Hospital. The healthcare industry is undergoing dramatic change, and the needs of our community and our patients are not the same as they were just a few years ago. But we're prepared to meet the challenge. We're investing in our people and our facility, and our primary focus always remains the same: At Sierra Vista Hospital, we remain committed to **Making a difference. Changing lives.**
